Acme Spray Materials

Coulsen's Feeds

Smith's Universal Feeds

—Alfalfa seed market has been showing strength and with a reasonable amount of planting this spring should and perhaps will go to higher levels. Our Northern grown seed as offered in this list are good values on today's market.

—Grass seed markets are extremely dull. Prices of many items are the lowest in history. This is an appropriate time to encourage farmers and home owners to reseed pastures and lawns.

—Exceptionally cold weather in December froze all the fall planted Vetch in the Northwest. Surplus stocks of seed will be needed to replant all this acreage this spring. As a result, prices of Vetch seed have advanced recently with still higher prices in view.
